The Digital Age - Entrepreneurship and Innovation

Main Auditorium Program

Wednesday, 12 November

Time	Main Auditorium
6.30pm	<p>Session 1 - Understanding the seismic shifts from digital disruption</p> <p>In this very special session we will enjoy a glimpse into the mind and attitudes of Alexis Ohanian who at 31 is already a veteran of the internet-powered disruptor. Having founded reddit and numerous other ventures, he has a reliable habit of reshaping markets at an extraordinary pace. Alexis will be interviewed by the ABC's Bernie Hobbs to wrap some context and perspective around what promises to be a highlight of the Brisbane Global Cafe.</p> <p>Welcome and overview - The Hon. John-Paul Langbroek, Minister for Education, Training and Employment</p>
6.35pm	Introduction - Professor Jana Matthews, ANZ Chair in Business Growth and Director of the UniSA Centre for Business Growth, Australia
6.45pm	15-minute download - Alexis Ohanian, Co-founder of reddit (beamed in live from New York)
7.00pm	Interview with Alexis Ohanian: By Bernie Hobbs
7.15pm	<p>Session 2 - Digital disruption across geographies</p> <p>MC - Bernie Hobbs, Moderator Cat Matson</p> <p>To play on the world stage you have to think globally and place your actions and activities in a global context. As the world has become a smaller place, these global thinkers have made it as familiar as their own back yard. Our panel of globe-trotting entrepreneurs, Harvard thinkers and social engineers will explain ideas that know no boundaries. It will leave you inspired, challenged and awakened to turn our thinking into action at a new level.</p> <p>7.15pm - Thought starters and panel discussion: A global perspective</p> <p>Professor Josh Lerner, Harvard Business School, US</p> <p>Sangeet Paul Choudary, Managing Director, Platform Thinking Labs, Singapore</p> <p>Elliott Verreault, Co-founder, Smart Gov, UK</p>
8.00pm	Break
8.20pm	<p>Session 3 - Regional responses to foster entrepreneurship and innovation</p> <p>Despite the world shrinking, one size does not fit all. Our selection of experts from North America, Asia, Europe and Australia will share their view of what differences exist in their markets. Through understanding cultural and market differences across industries and territories, companies that go global can readily cater to local needs. And some of the challenges you might face will be sure to surprise!</p> <p>8.20pm - Presentation: Frank Farrall, Lead Partner, Deloitte Digital, Australia</p> <p>8.30pm - Panel discussion</p> <p>Andrew Taylor, CEO, Juwai, China</p> <p>Teri Willey, VP Business Development and Technology Transfer, Cold Spring Harbour Laboratory, US (beam in)</p> <p>Mateu Hernández, CEO, Barcelona Global, Spain</p> <p>Dr Ilse Treurnicht, MaRS Discovery District, Canada</p> <p>Professor David Lloyd, Vice-Chancellor and President, University of South Australia, Australia</p>
9.10pm	<p>Session 4 - Company responses to digital challenges and opportunities</p> <p>We are spoilt for choice in our final session as leaders of some of the world's best digital businesses share with us their insights, including SY Lau, President, Tencent Media Online Group, the fourth-largest internet company in the world. These experts have first identified the need for change, and then sown the seeds of belief whole-heartedly to effect real change in their world. They will share these same insights with you, hoping to help change your world. Not to be missed.</p> <p>9.10pm - Presentation: SY Lau, President, Tencent Media Online Group, China</p> <p>9.30pm - Panel discussion: Steps companies are taking to respond to digital disruption</p> <p>Buddy Arnheim, Partner, Perkins Coie, US (beam in)</p> <p>Hugh Durrant-Whyte, CEO, National Information Communications Technology, Australia. (NICTA), Australia</p> <p>Nathan Cher, Founder and Director, OurCrowd</p> <p>Dr Mark Bregman, Innovator/ex-CTO to Neustar, Symantec and Veritas</p> <p>10.20pm - Closing remarks: Professor Jana Matthews</p>
	Finish

Powering Future Economies – Main Auditorium Program

Wednesday, 12 November

Time	Main Auditorium
12.50pm – 2.25pm	<p>Powering Future Economies</p> <p>Session 1 – Growth engine: Capitalising on energy’s full growth potential</p> <p>MC – Linda Yueh, BBC Chief Business Correspondent</p> <p>Historically, energy and economic growth have been inextricably linked. Cost-competitive and reliable energy is the lifeblood of every modern industrial economy. For those countries fortunate enough to have rich energy resource endowments, significant additional prosperity can be derived from the export of energy resources and its associated services. In this session we want to explore the following key questions:</p> <ol style="list-style-type: none"> 1. What is the global outlook for demand and supply of energy? Is the global coal industry heading towards feast or famine? Is gas the dawn of a golden age or a poisoned chalice? What disruptive events could change the global energy outlook? What could be the implications for the major export nations and consumers globally? 2. Do significant resource endowments lay the foundation of a lucky country or do they rather cause the Dutch disease? How can nations balance domestic needs with export benefits, e.g. is a domestic gas reservation a good idea? How can resource export nations position themselves to maximise economic growth from their resource endowments? 3. What are the critical success factors for developing and maintaining a globally competitive energy resources and services export industry, e.g. skills, regulatory and policy environment, social licence to operate and technology leadership? <p>12.50pm – Opening address: Dr Alex Wonhas, Executive Director, Energy and Resources, CSIRO, Australia</p> <p>12.55pm – Presentation – The Hon. Mark McArdle MP, Minister for Energy and Water Supply</p> <p>1pm – Introduction: Linda Yueh</p> <p>1.10pm – Presentation – Glenn Kellow, COO, Peabody Energy</p> <p>1.30pm – Presentation – Matt Rogers, Director, McKinsey & Company "Resource Revolution"</p> <p>1.40pm – Presentation – David Knox, CEO, Santos</p> <p>1.55pm: Panel discussion – Moderated by Linda Yueh</p> <p>Panellists – Glenn Kellow, COO, Peabody Energy Matt Rogers, Director, McKinsey & Company David Knox, CEO, Santos Paul Finn, Project and Infrastructure Finance Advisor (Former Head of Project & Structured Finance, ANZ Bank)</p>
2.35pm – 3.00pm	<p>Session 2 – Evolution v Revolution – the future of energy</p> <p>2.35pm – Presentation: Grant King, CEO, Origin Energy moderated by MC John Taylor, ABC</p>
3.00pm – 3.20pm	Break
3.20pm – 4.50pm	<p>Session 3 – Power to the people</p> <p>MC – John Taylor, ABC</p> <p>Affordable, reliable and sustainable energy is a vital factor to underpin growth in the developing world and to help lift billions of people out of poverty. This session will explore the role energy can play in enhancing security and reducing poverty.</p> <ol style="list-style-type: none"> 1. What role can and will energy play in poverty reduction and development? To what extent are economic development and environmental sustainability objectives mutually re-enforcing or opposed? What other enablers may be required, eg strengthening the role of women in making energy choices. 2. What are the most feasible pathways to bring affordable, reliable and sustainable power to the billions of people who don't yet have access to it? What are the barriers to these pathways and how can they be overcome? 3. What potentially new disruptive approaches, policies or technologies could particularly enable economic development of the poorest nations? <p>3.20pm – Introduction – John Taylor, ABC</p> <p>3.25pm – Presentation – Dr Bjorn Lomborg, Copenhagen Consensus Centre</p> <p>3.45pm – Presentation – John Connor, CEO, The Climate Change Institute</p> <p>4.10pm – Panel discussion – Moderator, John Taylor, ABC</p> <p>Panellists – Dr Bjorn Lomborg, University of Copenhagen, Denmark John Connor, CEO, The Climate Institute, Australia</p> <p>4.40pm – Closing address – Dr Alex Wonhas, Executive Director, Energy and Resources, CSIRO, Australia</p>
4.50pm – 5.25pm	<p>General session – special interactive discussion</p> <p>A conversation with theoretical physicist Michio Kaku</p>

Powering future economies – Deep Dive Program – Sherwood Room

Thursday, 13 November

Time	Sherwood Room
8.15am – 9.45am	<p>Session 1 – Evolution v Revolution: Possible Futures of the Electricity System</p> <p>Some of the largest machines mankind has ever built are our electricity systems. They may change more in the coming 30 years than they have changed in the past 100 years. However, many plausible pathways can be envisaged. We want to identify and discuss the issues and opportunities that will shape the future of the system:</p> <ol style="list-style-type: none"> 1. Could the electricity system move from a centralised, one-way flow to a decentralised, two-way flow system or is it likely to stay the same? What are the potentially successful future business models for a decentralised future? 2. Is the future of electricity likely to be black, green or in-between? What are the drivers and inhibitors for the uptake of different technologies, including demand side opportunities. 3. Is Australia like a “vegan working in an abattoir” by being the world’s third-largest exporter of uranium while prohibiting the use of nuclear power on its own soil? Is nuclear power a solution for Australia? Is there an opportunity or even a moral obligation to store spent fissile material in Australia? <p>8.15am: Introduction by Dr Alex Wonhas</p> <p>8.25am: Presentation – Ian McLeod – Chief Executive Officer, Ergon Energy <i>“What are the possible futures for our electricity systems”</i></p> <p>8.40am – Presentation – Ivor Frischknecht, Chief Executive Officer, ARENA</p> <p>8.55am – Presentation – Ben Heard, Director, ThinkClimate Consulting <i>“Beyond our Shores: A visual world tour exploring Australia’s nuclear responsibilities”</i></p> <p>9.15am – Panel discussion – Moderated by Alex Wonhas</p> <p>Panellists – Ivor Frischknecht, CEO Arena Terry Effeney, Chief Executive Officer, Energex Ian McLeod, Chief Executive, Ergon Energy Michael Ellis, Principal, McKinney & Company Ben Heard, Director, ThinkClimate Consulting</p>

11.50am – 12.50am	Break

Cities of the Future –

Thursday, 13 November

Time	Main Auditorium Program
12.50pm – 3.05pm	<p>Opening session – The global context</p> <p>MC – Haslinda Amin</p> <p>Leading global city thinkers share their insights on major trends facing cities as they look to the future. In the globalised economy of today and tomorrow, international flows of capital, trade in goods and services, innovation, and people are growing and moving more rapidly than ever. What should cities be thinking about as they compete for economic opportunity in this increasingly competitive environment? How do global trends create opportunity for emerging cities and what kinds of cities now attract talent, decision-makers and capital?</p> <p>12.50pm – Introduction: The Hon. Deb Frecklington, Assistant Minister to the Premier</p> <p>12.55pm – Moderated Q&A: Jing Ulrich, Managing Director and Vice Chairman of Asia Pacific at JPMorgan Chase <i>“Business perspective: Asian economies and commodities”</i></p> <p>1.30pm – Opening speech: Brisbane Lord Mayor Graham Quirk <i>“Australia’s new world city – from ambition to reality”</i></p> <p>1.40pm – 10-minute discourse: Rosemary Feenan, International Director, JLL, UK <i>“The globalisation of capital and how international trends are changing the way we work, live and shop”</i></p> <p>1.50pm – 10-minute discourse: Alan Berube, Deputy Director, Brookings Institution, US <i>“Globalisation of trade, industry and intellectual property, and how this creates opportunities for emerging cities”</i></p> <p>2.05pm – Panel discussion: The forces shaping new world cities – moderated by Haslinda Amin <i>“What are the main forces shaping cities and their global networks? What do cities need to do to be globally competitive?”</i></p> <p>Thought starters:</p> <p>Dr Stefan Hajkowicz, Principal Scientist, Strategy and Foresight, CSIRO, Australia</p> <p>Andrew Boraine, CEO, Western Cape Economic Development Partnerships, Cape Town, South Africa</p> <p>Other panellists:</p> <p>Rosemary Feenan, International Director, JLL, UK</p> <p>Alan Berube, Deputy Director, Brookings Institution, US</p> <p>2.50pm – 10-minute discourse: Dr Jaana Remes, Partner, McKinsey Global Institute, US/Finland (beamed in from San Francisco) <i>“Emerging market cities and the implications for the global economy – attributes of the 600 fastest-growing cities in the world”</i></p>
3.05am – 3.25pm	<p>Break</p>
